Explore Share-and-Compare People Chemistry for Individuals and Groups

- yüMlvü provides insights on how each individual connection is uniquely “wired.”
- 1:1 Comparisons coach on how natural differences become strengths, not collisions.
- Group vüs provide Awareness Alerts from the lens of each user to identify where natural differences may create challenges. Coaching shows how to find chemistry amid differences.

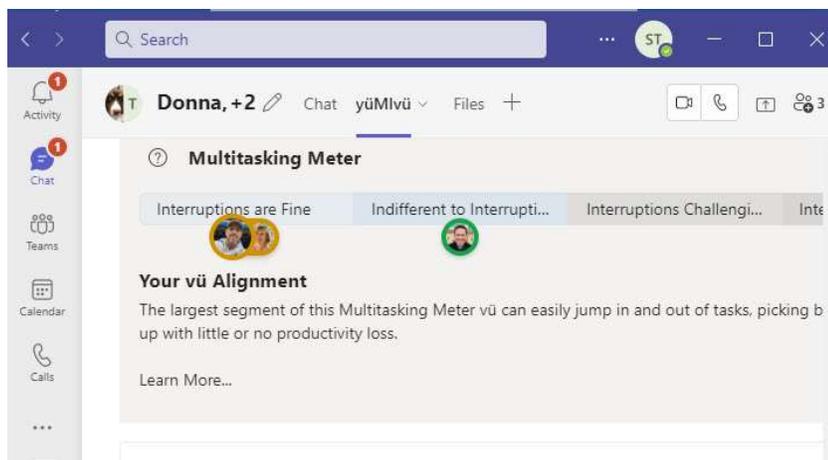

Grow People Chemistry through Friction Finder and Staying Motivated

- yüMlvü Basic includes the Friction Finder and Staying Motivated modules for up to 20 users.
- Friction Finder Awareness Alerts help teams identify and avoid costly “people chemistry” conflicts for seven common interactions.
- Staying Motivated shows how each team member is uniquely wired for motivation and what to do to ensure high motivation for all.

Connect People Chemistry Insights to Everyday Collaboration Workspaces

- yüMlvü Basic is designed to create stronger people chemistry where it is needed most.
- Better Meetings integrates with Outlook Calendar to create guidance for all aspects of a meeting based on who is invited.
- yüMlvü for Teams makes individual and Friction Finder insights available from a Microsoft Teams tab. Plus, yüMlvü inherits the users from each unique Chat so that insights are always relevant to that Chat.
