

**yüMlvü™**

## THE POWER OF PEOPLE CHEMISTRY

yüMlvü is a whole new share-and-compare approach to personality assessments.

- It's about yü (you)
- It's about MI (me)
- It's about us ... our vü (view)

## PEOPLE CHEMISTRY MODULE FRICTION FINDER

- The yüMlvü profile builder uncovers how people are uniquely wired. The Friction Finder uses this profile data to compare individuals and point out where friction may occur during collaboration.
- Color-coded Awareness Alerts provide strategies for seven common interactions – such as how we communicate or whether we prefer to work solo or in a group – to help preempt costly friction and build strong chemistry.
- Users can easily select who to include or remove from a group. Awareness Alerts dynamically refresh with best-fit strategies for that particular collection of people.

“Human engagement and team success often flow or fail based on compatibility, not capability.”

### yüMlvü Adds People Chemistry Insight to Avert Natural Conflicts with Others

Whether at work, home, or in community, groups are made up of individuals who are “wired” differently. When we are aware of these differences, we can keep them from growing into conflict points.

yüMlvü Friction Finder gives you the insight you need to avoid conflict and find common ground. Plus, you can easily drill down to learn how to best engage based on who is in your group, whether there's just two or 200.

Let yüMlvü help you tap into the power of people chemistry today.
