

## THE POWER OF PEOPLE CHEMISTRY

yüMlvü is a whole new share-and-compare approach to personality assessments.

- It's about yü (you)
- It's about MI (me)
- It's about us ... our vü (view)

## yüMlvü PRO BUNDLE INSIGHTS EVERYWHERE

- People Chemistry is central to collaborative success and with modules for Better Meetings, Better Teams, and Better Decisions, yüMlvü Pro delivers just that.
- Building on yüMlvü Basic, yüMlvü Pro applies advanced insights into how to optimally create and function as a team, find common ground for project chemistry, identify workflow friction, and more.
- yüMlvü Pro expands beyond individual, 1:1 profile, Friction Finder and Staying Motivated insights to explore in-depth people chemistry factors like risk appetite, bias detection, and critical decision making. It shows the optimal compatibility match for project team selection and offers tactical advice for meetings, workflows, and everyday engagements within Microsoft Teams.

“Human engagement and team success often flow or fail based on compatibility, not capability.”

### Adding People Chemistry Your Organization is Easy with yüMlvü Pro

Adding the power of People Chemistry to your collaborative workforce is easy with yüMlvü Pro.

With yüMlvü Pro, you simply enroll your organization and add users. These users can then create subgroups, called Saved vüs, for the various teams and combinations in your organization.

yüMlvü is easier still when you integrate with Microsoft Teams and Outlook. For Teams, yüMlvü inherits the user permissions for the Chat group. For Outlook, yüMlvü includes meeting invitees. In both cases, insights are specific to those individuals.
